

Calling all ComEd Teachers, Students and Families!

October is Energy Awareness Month and ComEd and The NEED Project are proud to launch several new activities designed to:

- Provide mini-grants (\$500) to schools to teach their peers and community about energy efficiency
- Provide up to \$50 for schools whose families recycle their old, inefficient refrigerators
- Teach about energy in the local community
- Collect more Change the World Pledges than the 2008 Campaign!

Join us for the fun! And receive teaching resources and grants to help!

Visit www.need.org/ComEd for more information starting October 5, 2009! Need more info? Email info@need.org.
