

I have gasoline.

Who has the average number of miles driven by vehicles in the U.S. each year?

I have alternative fuel vehicles.

Who has the initials for natural gas that is under pressure?

I have 12,000 miles.

Who has the name of a plant that processes crude oil into usable fuels?

I have CNG.

Who has the device that burns fuel to power a vehicle?

I have refinery.

Who has a fuel made by fermenting the sugars in plants such as corn?

I have internal combustion engine.

Who has a vehicle that uses only batteries for power?

I have ethanol.

Who has the average number of gallons of gasoline used by U.S. drivers each year?

I have dedicated electric vehicle.

Who has an environmental problem caused in part by using petroleum fuels?

I have 500 gallons.

Who has the term for vehicles that use fuels other than gasoline or diesel?

I have air pollution.

Who has the amount of U.S. petroleum consumption used for transportation?

I have 67 percent.

Who has a petroleum fuel used in heavy-duty vehicles such tractor-trailers?

I have E85.

Who has a fuel made from soybeans?

I have diesel.

Who has the process in which water is split into oxygen and hydrogen?

I have biodiesel.

Who has the number of cars on the road in the U.S.?

I have electrolysis.

Who has the initials for rating a vehicle's fuel efficiency?

I have 150 million.

Who has a vehicle that can use petroleum fuels, alternative fuels, or a blend of both?

I have MPG.

Who has a fossil fuel that is a by-product of petroleum and natural gas processing?

I have flexible fuel vehicle.

Who has a fossil fuel that is used to make gasoline, plastics, and medicines?

I have propane.

Who has the initials for a mixture of 15% gasoline and 85% ethanol?

I have petroleum.

Who has the name for public transportation systems?

I have mass transit.

Who has the measurement of an engine's rate of doing work?

I have octane.

Who has a fuel known as wood alcohol?

I have horsepower.

Who has the initials for natural gas that has been cooled to -259°F ?

I have methanol.

Who has the initials for a fuel that is a mixture of 80% diesel and 20% biodiesel?

I have LNG.

Who has the percentage of U.S. energy consumption used for transportation?

I have B20.

Who has a device that uses hydrogen and oxygen to produce electricity with water as the only by-product?

I have 27 percent.

Who has the most abundant element on earth?

I have fuel cell.

Who has a vehicle that operates with both electricity and gasoline?

I have hydrogen.

Who has the rating of a fuel's ability to resist self-ignition and decrease engine knock?

I have hybrid electric.

Who has a fuel refined from petroleum used mostly in passenger vehicles?
