

2022 NATIONAL ENERGY CONFERENCE FOR EDUCATORS

July 24-28

Sandia Resort & Casino | Albuquerque, NM
IN PERSON CONFERENCE

Great Training For:

Educators interested
in STEM & Energy!

Science Teachers

STEM Teachers

OST Program Leaders

*Absolutely one of the
best PD's ever, great
resources and contacts!*

*Great connections, wonderful
people, excellent resources.*

*My mind was blown, I learned
so much about energy!*

Conference Details & Topics

Bringing together educators from across
the country who are passionate about
learning and teaching more about energy
and STEM.

Participants receive training and materials
to implement innovative, hands-on energy
units in their classrooms, multi-disciplinary
teams, and Out-of-School Time programs.

Learn about the science of energy,
renewable and nonrenewable energy
sources, development and use of
transportation fuels, energy efficiency and
conservation, climate science, & MORE!
