

## 2019 Energy Oscars Winners

*Biggest Energy Consumer in the U.S.*

Goes to:

Electric Power Plants

*Most Widely Used Fossil Fuel in the U.S.*

Goes to:

Natural Gas

*Renewable Energy Source Used the Most  
in the U.S.*

Goes to:

Biomass

*State that Consumes the Least Energy  
Per Capita*

Goes to:

Rhode Island

*State that Releases the Least CO<sub>2</sub>*

Goes to:

Washington, D.C.

*Leading State for Electric Vehicle Fueling  
(Power) Stations*

Goes to:

California

*State that Generates the Most of Its  
Energy from Renewable Sources*

Goes to:

Washington, D.C.

*Fuel/Energy Source with the Highest  
Energy Density (Energy Stored per  
Volume)*

Goes to:

Uranium

*Country with the Most Offshore Wind  
Generation Capacity*

Goes to:

UK

*Most Widely Used Source of  
Energy Globally*

Goes to:

Petroleum
