

# CANDY COLLECTOR

**WITH THE LOUISIANA ENERGY OFFICE**

CANDY COLLECTOR IS A "SWEET" WAY TO INTRODUCE STUDENTS TO THE TERMS "RENEWABLE" AND "NONRENEWABLE". STUDENTS WILL GET A CLOSER LOOK AT HOW LONG ENERGY SOURCES WILL LAST WHEN USING ONLY NONRENEWABLE SOURCES AND WHEN INCORPORATING RENEWABLE SOURCES OF ENERGY.

WE BEGIN WITH A BRIEF PRESENTATION ON RESOURCES, FOLLOWED BY AN INTERACTIVE GAME OF KAHOOT! WITH PRIZES FOR THE WINNERS! NOW IT'S TIME TO PLAY CANDY COLLECTOR! THE ENERGY OFFICE IS PROHIBITED FROM PURCHASING FOOD PRODUCTS SO YOU WILL NEED TO SUPPLY EACH STUDENT WITH 5-7 JELLYBEANS AND 30 M&M'S. WE WILL BRING EVERYTHING ELSE!

EMAIL QUESTIONS TO [ROBIN.NAREZ@LA.GOV](mailto:ROBIN.NAREZ@LA.GOV) OR [LEIGH.SMITH@LA.GOV](mailto:LEIGH.SMITH@LA.GOV)
